

2024 Year-end Performance@ Letter

Your Summary

Performance Rating:
Too New to Evaluate

Level: **M1**

Salary

Previous	251,000 USD
New	254,336 USD
+	1.33%

Total Target Cash

Previous	301,200 USD
New	305,203 USD
+	1.33%

Bonus Payout*

2024 Bonus Payout 25,342 USD

Equity Refresher**

157 RSUs

*In order to receive your bonus, you must be employed by Meta at the time of payment, unless local law states otherwise.

**The terms of refresher RSUs are subject to the company's 2012 Equity Incentive Plan, our Board's Compensation, Nominating and Governance Committee approval and your RSU agreement. Meta recommends that you consult with a tax or financial advisor regarding the tax implications of your equity awards.

**The number of RSUs was determined by dividing your refresher value of \$110,107 USD by \$701.32 which was the average closing price of Meta stock for the 7 trading days between January 30th, 2025 and February 7th, 2025, inclusive.

Dear Jonathan,

We expect new hires to add value from Day One. So, even though you joined Meta recently and have not yet received a formal performance rating, you will receive prorated compensation outcomes. Your salary increase is calculated based on the salary rates for your role and your salary increase is effective as of February 24, 2025.

Your 2024 Bonus Payout is calculated as shown in the formula below and will be in your March 2025 paycheck (less applicable taxes and withholdings). Eligible earnings reflect time spent in a Company Bonus eligible role and excludes all variable incentive based earnings.

Eligible Earnings	X	Bonus Target	X	Individual Multiplier	X	Company Multiplier	=	2024 Year End Bonus
101,366 USD		20%		100%		125%		25,342 USD

As part of our compensation philosophy, we would like for you to be invested in Meta and the long term value that you are helping to create in the world. Therefore, we are also recommending to our Board's Compensation, Nominating and Governance Committee that you be awarded an equity refresher grant of 157 restricted stock units (RSUs). Subject to your continued employment, you will vest in 1/16th of these RSUs on each quarterly vest date beginning May 15, 2025.

For more information about our compensation programs, please visit the people portal here: <https://fburl.com/compprograms>

Thank you for your contribution to Meta.

Sincerely,
Paul Wright
